

Built-in Antenna / Built-in Antenna **RX-481 / RX-482**

2.4GHz FH3/FH4

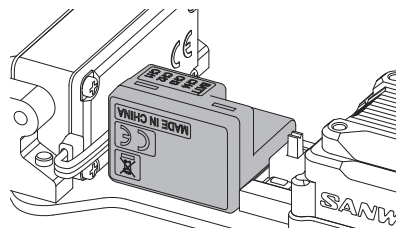

! How to equip in EP car

OK Recommended Method

- Antenna receiving position is located at upper side.
- Label direction is outside.

NG Method which receiving sensitivity become worse

- Antenna receiving position is located beside chassis.
- Label direction is lower side.

- In case of receiver's bad equipped method, receiving sensitivity become worse and receiving range become short.
- Make antenna receiving position upper side and equip apart from wiring, etc.
